

Year Project Performance Report

Michal Kostrhun, prof. Ing. Igor Farkaš, Dr.

Univerzita Komenského v Bratislave

Project Timeline

- **5. 3. 2026 — Goal Set: Publishing at a Conference.** As suggested by the guiding teacher, we've decided to pursue the publishing and presentation of our project at a CogSci conference in Czechia.
- **6. 3. 2026 — Start of Writing Research Paper, Continued Research.** Abstract, context and motivation, introduction of our work, it's relevance, importance and outlining future work. Continued research and aggregation of information and references.
- **1. 5. 2026 — Final Draft of The Article.** Final touches, meetings with guiding teacher, internal reviewing and polishing. Submitting the final version to the conference organizers.
- **22. 5. 2026 — Feedback from the Organizers.** Our article has been accepted and reviewed by the conference reviewers. Subsequently, we received a document containing written, constructive feedback of our work and the article itself.
- **23. 5. 2026 — Finished Preparations for Presentation.** A concise, readable summary of our article in form of an A1 poster was created and printed for presentation purposes, styled in the representative look of our university.
- **26. 5. 2026 — Conference Presentation.** Using the poster, we presented the project at a Czechoslovak conference in Czechia and let conference attendees engage with and provide feedback on our work. The presentation was a success from both our view and the view of our guiding teacher.

Summary

This period was marked by the successful dissemination of the project's outcomes through academic publication and presentation. The team consolidated its research into a con-

ference paper, received positive peer-review feedback, and presented the work at a scientific conference in Czechia. These activities provided valuable external validation of the project's quality and enabled engagement with the broader academic community.
